## 978 Importance of Life Skills for Teachers in Nation Building

Manangala N Rayangoudar  
 Professor in Education  
 J P College of Education, Gadag-582101

### Abstract:

The study is aimed to evaluating the role of teachers in the national building it is obvious that qualified, competent and dedicated teachers are the major instrument for achieving the educational goals and the national building they are often the molested and abused by students, parents and the entire society nevertheless through the teacher education teacher have contributed to national development like election, census there the participate in creating awareness among the citizens they are the real agents that help in development of the various skills and competencies it should be noted that the more good teachers the nation has the more than the solid citizens and the hence more development of the country.

**Key words:** Life skills, Innovative, Storytelling and

### Introduction: -

Now a day an innovative teaching plays an important role in the effectiveness of both teaching as well as learning. Innovative method of teaching has become a crucial and challenging for teacher in education. Many researches have proved that innovative teaching methods have significantly improved the process of learning of the students. Life Skill is one of the innovative teaching method/Approach.

### Some of the innovative teaching approaches are

- 1) Technology based teaching
- 2) Puzzles and games based teaching
- 3) Interactive based teaching
- 4) Creative based teaching
- 5) Story telling
- 6) Life skills based teaching

Teachers are the makers of man. She/he is a foundation of all education. The whole civilization of Human future is created by the teachers. The quality and competence of the characters of teachers is most important factor to impact the quality of education and its construction to National development. Such National development quality of Education can be improved through Life skills education contribution. Before knowing the importance of life skills for teachers. Let us know what Life skills are. The skills that helps an person to be successful in living a satisfying and productive life, Democracy, Gender equality, Child care and protection, promotion of peace etc.

### Then why we have to teach life skills?

- 1) To develop the child health.

- 3) To prevent the causes of death, disability and diseases of child and adolescents of children.
- 3) Social development of children.
- 4) To adjust the children for the social circumstances.

#### **Need and Importance of Life skills for teachers**

- 1) To adjust and deal with the changes brought in modern education system.
- 2) To adapt new ways of teaching and learning approaches and also to control over the behaviour and create positive values.
- 3) It is needed to prevent maladjustment and improve and discover and personal capacities.
- 4) Through life skills, Teachers and also Learners can enhance all the ten cores of life skills.
- 5) Life skills methods leads to an interactive among children so that it focuses on learner certified, gender sensitive, participating learning and youth friendly.
- 6) It improves cordial relationship between teachers and students.
- 7) It improves academic performances (results) of teaching life skills which also improve students' attendance.
- 8) It improves psycho-social abilities and make an individual to enhance his knowledge and values.
- 9) It leads to positive behaviour and build strengths.
- 10) It provides many opportunities to develop the potentials to produce productivity.
- 11) It increases self-confidence and develop interest.
- 12) Teachers will be the facilitator and student will be the active participants and get first hand information by involving themselves.

#### **Different activities that can be used to improve life skills in the institutions the activities are as follows**

- |                   |                     |
|-------------------|---------------------|
| 1) Brain storming | 2) Dramatisation    |
| 3) Role playing   | 4) Discussion       |
| 5) Storytelling   | 6) Group Discussion |
| 7) Debates        | 8) Quiz             |

#### **Challenges for Teachers are**

1. Professional learning for educational leaders.
2. Staff appraisal system and the use o per observation in schools/colleges are still in development.
3. Establish learning communities and networks among teachers.
4. Mentoring the inexperienced teachers.
5. Lack of up-to-date books and materials on life skills.
6. Emphasis of teacher evaluation on professional duties/responsibilities than on actual classroom teaching practices.
7. Teacher-cantered strategies and pedagogy still dominate in the classrooms.
8. There are still maximum differences among school in the area of instruction particularly relating to independent student practice, in the skill of questioning, and expectations of teacher towards the students achievement.

9. There a challenge in the need to explore the development and judgement of teachers for developmental appraisal, observations improves the teaching quality of teachers so the quality will be enhanced.
10. If there is goal orientation that is more learner oriented rather than performance-oriented.
11. There is lack of professional attitude.
12. There is lack of exposure to various information communication technology involved in the teaching learning process.
13. Less innovation in pre-service teacher education curriculum.
14. Teacher has to change the attitude of transmitter of knowledge to a reflective practitioner.
15. Teacher has to enrich competence to face the emerging challenges.
16. Teacher has to become multi faceted one comprising academic and social roles.
