Action plan indicating the way students are familiarized with the diversities in Indian school system were as follows.

- Talks on development of School system by teacher educator/experts/distinguished resource persons from different types of schools to acquaint students regarding the functioning of their respective schools.
- Discussions followed by presentations by the students on state wise variations in school system.
- Pre internship programmes in rural and urban school for observations of functioning of different types of schools.
- Orientation about different type of assessment in classroom teaching.
- Actual class room practice during one semester internship programme in different schools.
- Visit to different types of schools by students and writing of the detailed report.
- Extra co-curricular activities.,
- Maintain consistent communication with them.
- Physically strength must be increased with yoga and sports.
- Respect and sensitivity must be given to the students.
- Art and cultural program were organized.
- Diversity in lesson plans but cultural awareness in classroom.
- Important days must be celebrated and their importance should be understand by students.
- Give students freedom and flexibility.
- Students must gain a better understanding. So they will become open minded and they will feel comfort.
