

**Institution has created an eco-system for innovation and other initiatives for creation and transfer of knowledge**

**Report on Eco-System for Innovation of Ideas**

**1. Report on Participative efforts (brain storming, think tank, etc) to identify possible and needed innovations :**

The Research Committee brain storming sessions and discussions has resulted in application of various novel ideas of innovative pedagogy. This sharing of these ideas with staff and students has enabled the faculty and students to develop instructional materials for ready use for teachers in schools.

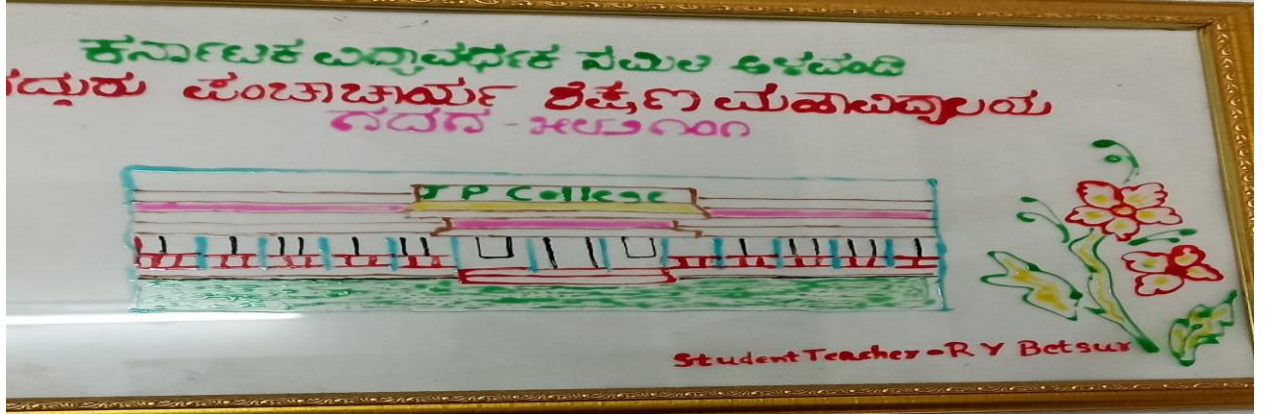

2. Work Based Education (**SOCIALLY USEFUL PRODUCTIVE WORK**)  
College has facilitated SUPW practices every Saturday in a week. College provides SUPW materials for productive works and some low cost productive works student teachers were informed to bring needful materials from home. In each classes college introduces a resource persons and if student teachers have such skills they were also performed as resource person of the class. The active participation and involvement of each student in this class were assessed by the mentor teacher and grades were given at the end of the course.
